

MARINE AIR CONTROL GROUP 18

COMMANDING OFFICER'S ENVIRONMENTAL POLICY STATEMENT

Guiding Principles

The 1st MAW Environmental Protection Program is intended to preserve our natural and cultural resources. As we train and conduct our day-to-day operations, we must ensure we balance our obligation and requirement to protect our natural and cultural resources.

An effective environmental program means:

- Continuously seek ways to improve our Environmental program.
- At all times, keep in mind the quality of our environment affects everyone.
- Accept responsibility and personal accountability combined with genuine concern for our scarce resources.
- Supervise

As members of the MACG-18 family, we must comply with the environmental laws ensuring we meet our responsibilities as neighbors to the Okinawan Community. I expect each of you to take a proactive role in identifying and eliminating hazards that may affect our precious environmental resources.

Semper Fidelis,

A handwritten signature in black ink that reads "P.D. Patterson, Jr." with a stylized flourish at the end.

P.D. PATTERSON, JR
COLONEL, U. S. MARINE CORPS
COMMANDING OFFICER
MARINE AIR CONTROL GROUP 18
