

# VEHICLE STORAGE

## [MARADMIN 02/24 Shipment and Storage of Privately Owned Vehicle \(POV\)](#)

Maybe you're leaving on a military deployment or you have permanent change of station orders to an overseas duty station and you won't need your vehicle. Whatever the reason your car will be without a driver, you will want it to be safely stored. Proper preparation and storage will protect your vehicle from rust, corrosion, mildew and even animals, ensuring that it's in good condition when you're ready to take it on the road again.

If you have received orders to Okinawa, it is highly inadvisable to ship your vehicle as you will incur numerous amounts of extra costs to include modifications to your vehicle in order to match the Japanese laws. The best option would normally be to store your vehicle in the States while you are here. However; the option is yours.

In order to store your vehicle before PCSing to Okinawa, click [here](#) to see the steps and requirements.

In order to ship your vehicle to your OCONUS duty station, go to [PCSMYPOV](#).
