-As the squadron representative for HMLA-367 I am the primary local distributor of base wide information regarding Single Marine Program (SMP) events. I am also the acting voice for single marines directly to the squadron chain of command and the base coordinator. I can facilitate requests for events, RSVP each marine a spot in an upcoming event, and relay complaints regarding their quality of life as a non-married marine. The Single Marine Program provides volunteer opportunities within the local community and recreational activities at a discounted rate. The SMP Club provides TV, movies, and computer availability to Marines living in the barracks.
