

VMM-268 Command Philosophy

Unit Mission: VMM-268 supports the MAGTF Commander by providing assault support transport of combat troops, supplies and equipment – day and night – under all weather conditions during expeditionary, joint, or combined operations.

Real Players know their job...

Each of us has a responsibility to be technically and tactically proficient in our occupational specialty and execute our duties with precision. We will conduct maintenance and training by the book and hold each other to the published standard of performance. We will set specific, measurable goals and always be improving.

Real Players treat each other well...

Character is revealed in how we treat the people around us. We will earn respect by knowing our job and working hard. We will create a professional workplace by setting the example and ensuring we treat each other with dignity and respect.

Real Players work together...

We have a responsibility to each other to learn, teach and improve continuously as a team. The more we do this in training, the more capable we become as a unit. Have an expeditionary mindset and expect to overcome challenges to succeed in accomplishing our mission alongside fellow Red Dragons, our MAGTF brothers and sisters, the joint force and our foreign partners.

**LtCol S. M. Hennessey
Commanding Officer**

"No Fanfare, No Parades, No Heroes...Just Real Players"
